Editors' Notes

Ours are Stories of Hope

It's 8:30 p.m. You're staring at your laptop, struggling with the third bullet point on the sixth slide for your presentation the next morning, when you feel a tug on your T-shirt. "Daddy, can you tell me a story?"

You look down at your daughter, and smile. You close your computer and follow her to her room, where you read her favorite story about dragons, pirates, princesses, and triumph.

After "the end," you turn out the light, and halfway down the hall, you hear her retelling the tale to her teddy bear. She really loves that story, you think, opening your laptop back up. Then you sigh and turn back to your bullet points.

Stories aren't just for kids. For thousands of years, stories were the primary means of conveying information, and our brains have evolved to respond to them.

Humans of any age seem hardwired to understand stories, which makes them ideal vehicles for professional communication too.

The stories in this Installation edition are those of hope towards our community of Nansana and beyond. So, whether we're making a presentation about our club's most recent project, giving a speech, or trying to land new donors and supporters, we need to find hopeful pitching ways that can optimize Nansana stories, and thereby *Communicate a message of hope.*

Storytelling works because it involves detail. There are characters and action and conflict and emotion. But it's easy to overdo it. Without an objective, like author Bearden says, "*You don't know how to triage. What do I put in? What do I leave out? How do I decide?*"

Starting with the objective makes those decisions easier. The goal of most Rotary stories is to get the audience to act. You want the audience to remember the story, and usually, to tell someone else.

By beginning with your end in mind, you can craft a crisp, concise story *that's easy to retell.*

Read on. These are our stories. Told and crafted by Nansana Rotary and its associates.

We are the Hope Creators.

Chairperson's Message

Welcome to the 15th Presidential Installation

Every journey begins with the first step and others follow up to your destination, and here we are at the 15th installation ceremony of R.C Nansana .

We warmly welcome you. Please feel at home.

To our partners and sponsors we are so grateful for your unconditional support as we Create Hope to Humanity.

The Amazing president, Board and Rotarians of RC. Nansana, we congratulate you upon the numerous achievements registered during the Amazing Rotary year and your continuous support rendered to the ushering in of the Hope Creator president.

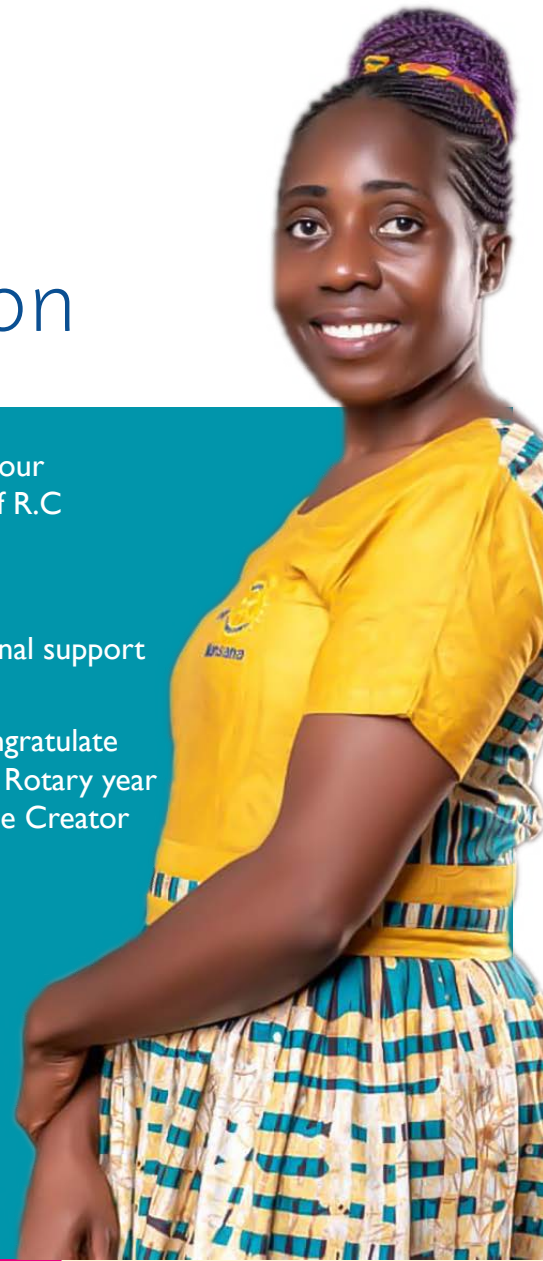

We strongly believe that hope shall be created among communities under the able leadership of HCP Christine and her Board.

We thank all of you for being part of this occasion and we do not take your participation for granted.

God bless you all.

Create Hope in the World

Rotary International President-elect **Gordon R. McNally** called for members to capture the world's attention and lead the way toward possibilities far beyond our current expectations.

McNally, a member of the Rotary Club of South Queensferry, West Lothian, Scotland, revealed the 2023-24 presidential theme, Create Hope in the World, during the Rotary International Assembly in Orlando, Florida, USA, on 9 January. He urged members to promote peace in troubled nations, help those affected by conflict, and maintain the momentum of initiatives begun by past leaders.

"The goal is to restore hope — to help the world heal from destructive conflicts and, in turn, to help us achieve lasting change for ourselves," McNally said at Rotary's annual training event for incoming district governors.

McNally spoke about a woman he met in Ban Taling Chan, Thailand, where Rotary members helped build houses, a meeting hall, and childcare and health care facilities following the tsunami that devastated South Asia in late 2004. The woman had lost her husband, her daughter, and her son in the tsunami, as well as her livelihood. But she still had a gift to offer McNally: a beautiful seashell.

"She went on to tell me that Rotary... had restored her optimism. We gave her hope," McNally said.

"This is how Rotary brings lasting change to the world," he added, "one restored or newly created

*"Peace is the soil where hope takes root,"
McNally said.*

Gordon R. McNally RI President 2023 – 2024

hope at a time."

Promoting peace

A significant way to bring hope to the world is to put a greater emphasis on peace, McNally said. He cited the action Rotary members have taken in the past year to support the people of Ukraine after the invasion by Russia. Rotary has made humanitarian relief a priority, attracting more Ukrainian members in the process. But McNally noted that true relief won't come without peace — not just in Ukraine, but in Yemen, Afghanistan, Syria, and dozens of other places around the globe.

"Peace is the soil where hope takes root," McNally said.

McNally ended his speech by describing his ideal balance of continuity and innovation. "Rotary helps create the conditions for peace, opportunity, and a future worth living," he said. "By continuing what we do best, by remaining open and willing to change, and by keeping our focus on building peace in the world and within ourselves, Rotary helps create a more peaceful world — a more hopeful world."

Outgoing DG's Message

Thank You for an Amazing Year

Dear Amazing President Micheal, and your team.

Fraternal greetings from the office of the District Governor RID 9213. I guess all is well with you as you manage the transition from the Amazing Imagine Rotary

year to the Hope Creation year. The end of one era marks the beginning of another.

I am glad to join in celebrating your era that has seen and defined you as an amazing President of an amazing club who has done amazing things in amazing ways to generate amazing results for the amazing community under your jurisdiction. Bravo and congratulations upon your successful tour of duty as an amazing President of your club.

It's been a great honor and privilege to be your team leader and I can state without fear of contradiction that you have been an efficient and effective team leader who has demonstrated team work, team spirit and team cohesion leading to impactful team performance.

My experience working with you is indeed memorable as you allowed me opportunity for interactive engagement, involvement and participation in your major club activities, projects and programs.

Your work methods characterized by cooperation, collaboration, coordination, communication, consultation, connection and celebrating achievements has given me the best experience as your team leader qualifying our year to be truly amazing.

The amazing year can only remain amazing when we amazingly support the hope creation to take effect. Let's all amazing as we identify, associate and support the hopeful team in creating hope in the world.

Cheers .

Mike Kennedy Sebalu
District Governor, 2022-2023

Incoming DG's Message

Time to Be the Best President ever

Dear Hope Creator President,

I would like to congratulate you upon being entrusted with the highest office in the club by your club members. It is recognition of your commitment to the club over the years.

The work and effort you put in at every turn never went unnoticed. It is now your turn to return the favour by being the best president your club could ever have.

As Hope Creators, this is the platform we will use to create hope in your club, in your members and in the communities you serve. Serving as Club President is a journey worth taking and it comes with huge responsibilities, but again, Rotary aspires to bring the leadership qualities in us to the fore.

Thankfully, the support network is immense: from your club members, your board and your peers, to your fellow Hope Creator Presidents, the Assistant Governors and the rest of the District officers. You can also count on me whenever you need my direct support.

My aim is to see you succeed as president, and your success will be measured by that of your club. This eventually feeds into success at district level, which will inevitably see our wonderful organisation grow by leaps and bounds. After all, what is Rotary without Rotary Clubs and the members?

The world is full of many challenges so as problem solvers, we should always look out for o

pportunities to do good in the world. Rotary gives us that opportunity and it is upon us to seize it as and when we see it because it allows us to change desperate and dire situations to those of optimism, cheerfulness, brightness and above all, hope. As Rotarians, this is what we know and are encouraged to do. It enables us to create hope in hopeless situations and give meaning to meaningless ones. I would also like to congratulate the Amazing President for a job well done during the year.

Together with your club members, you saw the club realise its set goals. The target now is to

ensure that the work continues and keep the bar high. I call upon you and the club members to build on the Amazing work that has been done by the outgoing team and create hope in communities beyond what has been achieved thus far. I wish you all another wonderful and successful year of service to humanity, and look forward to celebrating all milestones achieved when the time comes.

Let us continue to Create Hope in the World.

DG Edward Kakembo Nsubuga
RID9213 RY 2023/2024

Chief Guest's Message

Bring on the new energy, ideas and connections

Dear President Christine ,
I wish to congratulate you upon your new position
in your club.

It is an exciting time when new energy, ideas and connections are brought into leadership. I thank the amazing leaders of the club that have led with enthusiasm over the past year.

Because leadership changes every year in Rotary, one of our challenges is continuity to ensure we achieve our long-term goals. I encourage you together with your Board of Directors to ensure that the initiatives, ideas, and aspirations started by the outgoing leadership are worked through to completion.

This is a time in the Rotary year for looking forward. You have made your plans, now it is time to show your dedication, preparedness, and teamwork to achieve your set goals with excellence.

As Rotarians we change lives, and we make a difference in our Communities and Globally. Our Rotary Theme for the year 2023-2024 is Rotary Creates Hope.

As Rotary International President R. Gordon R. McNally calls all Rotarians to capture the world's attention and lead the way toward possibilities far beyond our current expectations.

He said that as Rotarians we are blessed to be

able to take on leadership roles. Everything we do creates hope to someone, somewhere in the world. I urge you all my family at Rotary club of Nansana, to dream big, work hard to make your dreams reality. Together, we see a world where people unite and take action to create lasting change across the globe, in our communities and in ourselves.

Please support our Rotary Foundation. Through TRF we are doing amazing work across the globe and in our communities.

I wish you success during the New Year of Service

PDG. Kenneth Mugisha

“You have made your plans, now it is time to show your dedication, preparedness, and teamwork to achieve your set goals with excellence”.

Outgoing AG's Message

RC Nansana's Exceptional year of Service

The amazing President, amazing Board and amazing members of the Rotary Club of Nansana, I wish you Peace and Blessings from God. Allow me to congratulate you for successfully completing the 2022/23 rotary year.

Dr. Safinah Kisu Museene
Asst. Governor 2022/2023

I thank the President and Members of Rotary Club of Nansana for your continued spirit and commitment to the club and for implementing impactful projects in the communities you serve. I am extremely happy and I treasure all of you in the fact that we are ending this rotary year with many achievements.

I applaud you for participating in the Nakuule project, *for mothering the Rotary Club of Matugga*, for making contribution to *the Rotary Foundation, supporting the BELEP project* and for holding a successful health Camp. I am aware of the *Provisional RC Kasubi* and very hopeful that we will soon deliver another baby this year.

I thank all of you for supporting me as your Assistant Governor. My interaction and interface has made me a better person. You have created another family for me here at Nansana, I have carried wonderful memories and I promise to remain relevant and part of Rotary Club Nansana.

As we are aware that the Rotary Club of Nansana is among the best clubs in district 9213, *Your members are serving beyond the club and at district level.*

I congratulate you for the *three awards you received* at the district conference which was held in Mbarara. Running with you to receive the *bulletin, membership extension* and *seven by seven challenge* awards excited me and it was amazing. I therefore implore you to always aim higher and to continue impacting positively in everything you do in communities.

Lastly may I congratulate the Hope Creator President upon the attainment of the highest office in the club and I wish you the best.

Thank you

Incoming AG's Message

Let's Continue with the Rotary Journey

Congratulations to the esteemed Rotary Club of Nansana upon installing the calm and elegant President Christine as your new president.

Friends are the family we choose. Rotary gives us an opportunity to choose a well-defined family as adults. This is a family whose values we know and share. This is a family spread in every city in the world.

Rotary truly makes the world more of a home for us Rotarians. And every week we shall meet, for the rest of our lives. We are gladly stuck together and might as well make it count.

We shall forever be grateful to the people we serve. They allow us to leverage their needs and wants, their personal situations, to gain joyful fulfilment for ourselves.

We are happy campers because of family and the joy of serving others.

Viva the Rotary Club of Nansana. May 2023-24 and President Christine lead us to more ticks in our well known history of meeting annual goals.

Viva le Rotary

Robert Ssemakula, RC Kitante.

Sow Early Reap Abundantly

Celebrating Our Success as an Amazing Team

Dear Colleagues,
It was a great honor and a great opportunity that you granted me to lead the Mighty Rotary Club of Nansana in the Rotary Year 2022-23.

It has been a great year of life in which I have gotten exposure and an experience of leading volunteers. This has been a year of two extremes “we have had instances when colleagues lost loved ones and instances of happiness where members have excelled”. As human beings, we always chose happiness and moved on.

Colleagues I would like to thank you for the teamwork and support you have offered the club during the year and it is my belief that this will be carried forward. The awards that our club won at the “District Conference and Assembly”, were an indicator that our club can scale higher heights.

I would therefore like to thank the Membership Directorate for the “**Membership extension award**”, the public relations Directorate for the “**Bulletin award**” and Service projects Directorate for the “**Seven by seven team award**”.

Other Directorates have also excelled for instance the youth Directorate obtained “certificates of organizations for **Mount of Olives** and **Makerere SS Interact Clubs**.. This was a great milestone of formally restoring the interact clubs.

Colleagues, our Club formed the **Kakiri-Kamuli Rotary Community Corps “RCC,”**. There is need for follow up, train and do projects with the newly formed RCC. I want to also bring your attention to the newly formed **Rotary Clubs of Matugga and Kasubi**, who shall need the club's continued support during the next few years.

Friends, the **Nakuule Project** was started, I would like to thank the Nakuule committee lead by **PAG Mubangizi Jotham** for this project. It's not easy to mobilize funds especially during these hard economic times. However I urge members to come out strongly on this project. With the strong will and support of the members, this project shall be completed in record time.

I would like to thank members for the generosity towards the Rotary foundation. Thank you for the PHF's and all kinds of contributions.

I thank members for their Donations that enabled completion of the **Kisa primary School water project**. The school acknowledges that contribution, together with the community.

Members, join me in thanking the **Family of Rotary directorate led by Rtn Jackie Sendi**, for leading us in all sad and happy moments of the Club. You have done a great job.

I would like to thank members and especially my Board members, for the time and effort this year. I know we have moved a step forward and we need to move more steps in the next year.

I look forward to working with the new team led by President elect Christine and perform my new role as “**Club Trainer**”.

Lastly, I would like to thank my family for the support accorded to me during this year of rotary service.

Thank you all.

Ssekandi Micheal
Amazing President

I'm Dedicated and Ready to Lead

PDG Robert Nsibirwa recognizes President Christine as a Paul Harris Fellow (PHF)

Fellow Rotarians and guests, please allow me to recognise and acknowledge your presence, on this wonderful and special day in my Rotary life.

First, I would like to thank you my fellow Rotarians for selecting, trusting and confiding in me to lead the club as President for the next Rotary year 2023/2024. I am indeed honoured to be given the opportunity to serve in this capacity.

You have my sincere assurance that I will be dedicated to the cause of Rotary in this role, the same way I have demonstrated my commitment over the past few years since I was first inducted into the club.

How did I get here?

I can recall the genesis of this journey just like yesterday. It was a typical Ugandan hot, sunny and dry day sometime in Nov-2016, when I joined Nansana Rotary Club, having been invited by PAG **Joseph Kasozi Lubutokyo** of RC Muyenga (our **Mukko** now, husband to **Rtn Priscilla-Ed**).

Of course, Rotarians Evelyn Kiwanuka and Esther Nandya Mwanje, did a commendable job to make me the Rotarian I am today.

I cannot forget to thank my husband, **Mr Henry Gwanja**, and the entire family for the love, support, tolerance and sacrifice for all this long. Without you, I would not have made it.

In the same vein, I would like to express my appreciation to the Charter President. Past Presidents and Club Officers for having laid a firm foundation of RC Nansana and for keeping its banner flying high. With your overt and tacit support, I have been serving on all the Club Boards for all the years since I joined the Mighty Club.

I thank the current Board under the leadership of President Michael Ssekandi for all the achievements exhibited during the year and keeping the club image at all levels.

In addition, allow me thank the Installation Committee for organizing this function with the help of Ivory Hotel Management. Not forgetting our sponsors for the support and funding.

Finally, I thank PDG Ken Mugisha for accepting our invitation to preside over this important function despite your busy schedule.

What does it mean to be a Rotarian?

My view of being a Rotarian is a determination to give back to the people and society, and deliver service to our community. One of the fundamental questions that every person should ask themselves is: *'What is the purpose of my existence?'*

I don't want to be utopic about this, but in my view, the purpose of the life of every human being, should *be*, to make a positive contribution to the continuance and wellbeing of humanity.

I, therefore, do not think, that it is good enough, for someone to be able to give off their time, effort and or resources to help others, who are less fortunate in our society, and does *nothing*.

So, here is where *we* as Rotarians *differ* and that's why we are here... to make a difference.

In other words, "Rotary's Service to Humanity *"should NOT be DEFINED not only BY WHAT WE DO but more importantly by WHO WE ARE!!* also Rotary should not be about the Club President or any other official, but rather it is about us as individual Rotarians.... it is about our personal contributions that we make to those in need in our communities that Rotary serve.

The RI's Theme for the New Rotary Year

The theme for next Rotary year is *Create Hope in the World*. Unveiled by RI President Gordon R. McNally. This theme aims to promote peace in troubled nations, restore hope to those ravaged by conflicts and to help achieve lasting change.

The theme is in line with the vision of Rotary International: *"Together we see a world where people unite to take action, to create lasting change across the globe, in our communities and in ourselves"*.

As we transition into a new Rotary year it is always good time to remind ourselves of:

1. The *purpose* of this great service organisation and:
2. Its *Seven Intentional Areas* of Focus which are:
 - Peace building and conflict prevention
 - Disease prevention and treatment
 - Water sanitation and Hygiene
 - Maternal and child health
 - Basic education and literacy
 - Community Economic development
 - Supporting Environment

Therefore, our service next rotary year will be guided by the four RI strategic priorities aligned with the District goals 2023/2024 and the Club goals.

Which are;

1. Increase our impact
2. Expand our reach
3. Enhance participant engagement
4. Increase our ability to adapt

Plans for the upcoming year

Our Club Nansana values purpose deeply with a Clear Vision and set objectives aligned with the above RI strategic priorities:

- Increase Club per capita giving to US\$1,500;
- Improve our ability and measure impact and focus our programmes and offerings;
- Increase membership by 50% by 2025;
- Monitor and strengthen functionality and operations of Rotaract and Interact clubs;
- Increase Club visibility;
- Adopt a new efficient communication policy, and;
- Establish a succession plan and continuation of leadership.

With the above objectives an annual work plan has been drawn and the activities will direct the reality at the end of the rotary year.

The *District Boy child signature* project and the Club signature project, *Nakuule Rotary Hospital* have been incorporated therein.

Rotary International President Gordon emphasises that we should continue with the work begun by our past leaders. With this, all has been catered for and officers assigned.

In Conclusion.

Fellow Rotarians and Guests, I would like to make mention of a famous quote by Winston Churchill who said, *"We make a living by what we get, but we make a life by what we give"*. Of course, today we exist in a society where much emphasis is placed on personal wealth accumulation. However, we must *always* remember the less fortunate among us, and the fact that life in abundance, comes because of *giving* ourselves to others.

Fellow Rotarians: As we have been doing for so many years, this is what we will seek to achieve together through the programmes that I have just outlined.

And remember, our theme is *Create Hope in the World*.

Thank you

Rtn. Christine Nalubwama Gwanja (PHF)
Hope Creator President

The receptive and committed president Nansana has gotten

My first encounter with Rotarian to be Christine Nalubwama was in the Rotary year 2015/2016 at Namungoona Orthodox Holy Cross Hospital.

The Rotary club of Muyenga together with the Rotary Club of Waterdown Canada through Rotary grant implemented a rain water harvest system that saw a boost of water supply to the Hospital.

Christine at the time was a top administrator at this institution. She was enormously instrumental in the execution of this project which we concluded successfully.

The initial needs assessment were by Rotarian Davis Lwasa a member of the Rotary Club of Muyenga. The primary donor was Mr. Mark Haak from Canada who was one time a group study exchange student who I hosted on their visit to Uganda.

He set up a fundraising activity to support the Rotary help-drive where there was need and this was one of the areas in dire need. So I was duty bound to visit and make an assessment of both of the implementation as well as the impact of the project on the community despite the fact that I was not the primary project contact person in the club.

On one of the visits at the Hospital we were warmly welcomed by the Hospital Administrator. We were taken around the project implementation areas and briefed about the impact of the intervention. As we moved around with the administrator one could easily see someone very meticulous about the issues being addressed and spoke with great passion and zeal which was a representation of the appreciation of the timely intervention that rotary had brought to this community.

After a long discussion and observation, I took a bold step and personally asked Christine if she would be interested to join the rotary movement. She responded to the invitation positively.

The options before me at that time were to invite her to join the Rotary club of Muyenga since we had already worked together. Through more probing I realized that the most suitable placement was the Rotary Club of Nansana due

to the geographical area of her daily engagement. It was indeed was the most convenient club to join. I also informed her that this club was quite lively that she would easily fit in comfortably and immediately.

I recommended Rotarian Evelyn Kiwanuka to make her feel at home on her maiden visits as she started her journey.

I am so proud of Christine for her commitment to rotary and I have no doubt that becoming President of this Club in the year 2023/24 it must be a result of her meticulous performance in the various roles assigned to her in the different rotary years.

I wish just to make two important observations. Rotarian Christine demonstrated the prowess to serve on the onset. I recall when the club had health day at the School of Little Muheji she brought an Ambulance from the Hospital to be used in case of need. She was still a Guest at the time if I may recall. This was quite impressive and left a strong mark in the minds of the members of the rotary club of Nansana.

Secondly, she has been over the years a permanent member of the reception table at all installation functions. I won't be surprised if she is tempted to sit at this table even on her own installation as President. This is all because she is a person who believes in great details and comes from a background that works through structures to excel. Commitment and service beyond self are very strong attributes of Christine's way of life.

I wish Rotarian Christine a successful term at the helm of the rotary leadership of the Club. I urge you all to render all the support to her during this one-year term for I have confidence that she will create resounding impact on all opportunities that may arise in the rotary year as we Create Hope In the World.

RC Muyenga**

The Power of Collective Action: A Members' Call to action

Membership Impact starts with our members — people like you who see a world where people unite and take action to create lasting change — across the globe, in our communities, and in ourselves.

At club meetings in communities across the globe, our people of action come together to strengthen their connections to friends and neighbors and their commitment to improving lives.

Who can join?

We're looking for people who want to give back to their communities.

Rotary clubs also welcome Rotaractors, Rotary Peace Fellows, and other members of the family of Rotary who qualify for membership.

How can I become a member?

Clubs accept new members by invitation. To help us find the right club for you, we'll ask you a few questions about yourself and your interests. Then we'll share your answers with Rotary leaders in your community who will match you with a club.

As a club member, you will be asked to:

Pay club dues, Attend meetings and events, Use your professional skills and talents to make a difference.

Rotaract and Interact clubs

If you're between the ages of 12 and 18, you may be interested in joining an Interact club, a service

club for youth. If you're a young professional, at least 18 years old, you may be interested in joining a Rotaract club. Like Rotary clubs, Rotaract and Interact clubs give their members the chance to make friends, develop leadership skills, and create positive change

What are the benefits?

Becoming a Rotary member connects you with a diverse group of professionals who share your drive to give back. Through regular meetings and events, you'll: Discuss your community's needs and develop creative ways to meet them, Connect with other leaders who are changing the world, Expand your leadership and professional skills, Catch up with good friends and meet new ones.

Other benefits of membership include;

- The Rotary International Convention is our biggest event of the year. Rotary members from more than 130 countries meet at the convention each year to celebrate our successes and make plans for the future.
- Rotary Fellowships give members the chance to join a group of people who share similar interests, hobbies, or vocations. Some groups use their fellowship to make a positive difference.
- Rotarian Action Groups unite Rotary members, family members, program participants and alumni who share their expertise in particular fields by collaborating with clubs and districts on projects.

What's expected of me?

As a club member, you will be asked to: Pay club dues, Attend meetings and events, Use your professional skills and talents to make a difference.

Rtn. Rebecca Mukasa Mutaawe
DMC -RC Nansana

Nansana members share a light moment with the DG. Peace Tarembwa (D9214)

Living Happily Ever After

Rotary is all about service above self, creating an impact on people's lives and being the inspiration. Just like the kid's song that says, "the more we get together, the happier we'll be", Rotary is where we make memories and this is what makes us a family. As the Family of Rotary, we are in charge of coordinating these bonding activities.

As Rotarians, we always celebrate with those who have made it and grieve with the bereaved. We had the 'Enjoy Retreat' at Muhaise's farm (PICMA Mixed Farm), participated in the Okuhinjira and wedding of RTN Priscilla, graduation function of RTN Mutaawe's son, contributed towards the burial of RTN Kizza Johnson's father and RTN Ngabirano's father. We attended the introduction ceremony of RTN Alfred's daughter and prepared 'Eyoto fellowship.' We had mini home hospitality visits to RTN Ssemanda's home and RTN Sebulime's as well. We also had home hospitality at RTN Okware's home and RTN Churchill's.

Benefits of home hospitality

1. It increases self esteem. When you find yourself in a mutually supportive community defined by hospitality, and when you feel loved and cared for, it is going to reflect positively on how you view yourself.
2. Decreases stress and depression by making us happy, not forgetting the unlimited delicious food and drinks.
3. Shared experiences help us to build better relationships with others.
4. It is a way of showing love and letting other people know they are important..
5. Home hospitalities remind you of what you have to offer.

Let's strive to create a legacy that will inspire others as we continue to make unforgettable Rotary memories.

Rtn. Jackie Ssendi
Family of Rotary

Nansana gives birth to a bouncing, healthy baby in Matugga

The last seven/eight months have seen a lot of hard work from the RC Nansana towards the formation of RC Matugga.

Following invitation from Rtn. Michael Ssekandi, I attended fellowship at Diamonds Lounge in Matugga Town Council. This was around October 2022, I recall turning up late and finding about six members. Besides Rtn. Michael, the rest were not known to myself including Rtn. Godfrey Wasswa. The two Rotarians i.e. Rtn Michael and Rtn. Godfrey have done a tremendous job in the formation of RC Matugga. They have been supported by a couple of others from mainly RC Nansana, with others from RC Wakiso, RC Kawempe and RC Nateete.

I recall missing a couple of fellowships in the first two months until December 2022 when we elected the first four board members as follows;

1. **President;** Rtn Eng. Charles Kayondo
2. **Vice president;** Rtn Joshua Baziwe
3. **Secretary:** Rtn Wassajja Paul
4. **Club treasurer;** Rtn Irene Akugizibwe

Early in 2023, Rtn Nicholas Muwanga and Rtn Anne Rhita Nakyeyune were appointed by the Club in the positions of *Sergeant at Arms* and *Director Membership* respectively.

I was surprised to be elected Charter President, considering that there are many other capable members in the family.

Whereas, it is clear there is enormous work ahead of me, am grateful to God for the wonderful opportunity. I have since presided over a number of fellowships, and have seen the club transform from a club-in-formation through provisional status in March 2023, and charter in April 2023.

There have been some rough sections of the otherwise memorable journey. Firstly, there was another group with similar intention of forming rotary club in Matugga. The other group was being supported by RC Muyenga. A lot of effort was invested in ensuring the two groups merge in order to consolidate the efforts and opportunities. However, only a few members answered the call.

It turned out that some members had intentions differing from rotary objectives, and have since fallen off the journey.

RC Matugga is very excited about the charter, and is looking forward to climax the

celebrations on 9th June 2023. A retreat was held on 1st May 2023, to concretise the bylaws and goals for the first year 2023-2024.

Among others, RC Matugga will work towards achieving the following SMART GOALS in the first year 2023-2024;

1. Increase Club membership by 15 members, from the current 27 to 42 Members. This will be achieved through engaging and retaining members while at the same time attracting worthy new members to join the family.
2. Targeting at least 10 members attending the District Conference that will be held in May 2024 in Munyonyo, Kampala
3. Supporting the formation of at least two (02no.) Rotaract Clubs and/or Interact Clubs
4. Giving at least USD 2,000 to the Annual Fund "The Rotary Foundation" and at least USD 500 towards Polio plus project.
5. Implementation of at least one (01no.) Local project
6. Writing two (02no.) proposals for Global Grant projects

The above goals will be achieved through commitment, and hard work from members, as well as support from various stakeholders within and outside the rotary fraternity.

Rtn. Charles Kayondo, Charter President, Matugga.

Live from Addis Ababa

My Rotary Experience away from RC Nansana

Rtn. Mwesigwa Moses Rwaheru (PHF)

I take this opportunity to congratulate Rotarians, rotaractors and friends of Rotary upon a successful 98th DCA held in Mbarara, Western Uganda, and particularly for scooping several awards. Thanks to the able leadership of the club President and his team, and of course the RC Nansana spirit from all club members.

Rotary is an interesting organization to belong to, irrespective of the location you find yourself at. At the beginning of May 2022, by God's grace, I started my tour of duty as a Director of Desert Locust Control Organization for Eastern Africa (DLCO-EA), based at the organizations' headquarters in Addis Ababa, Ethiopia. DLCO-EA is United Nations registered regional migratory pest control body comprised of nine eastern African countries of Djibouti, Eritrea, Ethiopia, Kenya, Somalia, Sudan, South Sudan, Tanzania and Uganda. It was established in 1962 by an International Convention.

"Thanks to the able leadership of the club President and his team, and of course the RC Nansana spirit from all club members".

When I was leaving the country, one of the questions on my mind was how I would cope in a new area code with a different culture and ways of doing things. I looked up the available rotary clubs (and of course rotaract clubs, having served as a Youth Service Director for RCN in the Change Maker year) that I would fellowship with, once I arrived in Addis Ababa.

I was mainly worried about the language barrier since Amharic is the language commonly used in Ethiopia, and I did not know how to say hullo or ask for drinking water in that language!

Fortunately, the outgoing Director happened to be a Rotarian and I got a soft landing. I was invited to attend the online meeting of the Rotary Club of Addis Ababa-Bole, where a Ugandan, Rtn. Paul Mpuga was serving as President and the meetings were in English!

On Thursday of the following week, I was invited to Skylight Hotel to attend the physical meeting (some of us prefer to call them fellowships, albeit wrongly). These had just resumed after the COVID19 pandemic, during which meetings were mainly held on Zoom.

The club members were excited (though I was more excited to find a new home in a foreign land) that as one Rotarian was leaving, another one was coming on board. The club immediately requested that I transfer to Addis Ababa Bole, to which I responded that I would think about it! They immediately added me on the club's WhatsApp group so that I am able to follow the club activities and programs, since it would be my home during my tour of duty in Ethiopia.

The RC Addis Ababa Bole (D9212) was established in 1993, and is thus a fairly older club than RC Nansana. It has a variety of membership, including one of the PDGs of D9212, who is a very important resource for the club especially in networking with the worldwide Rotary family. Addis Ababa being a home to many diplomats, the club has a varied membership comprising of various nationalities. This has worked for the club in expanding its network and resource mobilization

initiatives. The club implements several projects, mostly global grants per year (last year they had 10 projects!).

Being in a new area code, I couldn't help but compare this club with my home club and see if I can "borrow" some success stories that we can duplicate back home.

I have observed that the club's success is attributed to the commitment of the members (sometimes few of them) that don't give up on the club! Attendance in club meetings is sometimes poor, but it does not distract the few members that show up, given that the mode is hybrid, thanks to technology.

Noteworthy is that due to the schedules of most members, there is usually limited or no time for "kimeza" after the meetings. The club however arranges home hospitality events, which allow members to catch up and enjoy the fun in rotary. This does not, however, compare with the RCN Kimeza and the splendor in the home hospitalities!

The club makes a collection at every sitting, which pays for the drinks (usually a cup of coffee

or tea) during the meeting and the balance is banked by the treasurer to the club bank account, which indicates a high level of transparency and accountability (evidence of banking is usually posted on the WhatsApp group that day or the following day)!

At the time the RI invoice is issued, members who have not paid dues are contacted and if they are unable to meet their obligations are terminated for that period. I have not seen any one taking offence in being terminated for the one year I have been with the club.

We therefore have one or two things to learn from each other as rotary clubs.

It is a great experience being in a new culture but rotary is one family. Though I miss my home club especially participation in club activities (especially when there is no hybrid option for Wednesday club meetings), I have found a home in RC Addis Ababa Bole as a visiting Rotarian, where I will try to enjoy every moment during my tour of duty.

Signature Project Update

All hands on deck needed: Ugx. 5 billion Nakuule Health centre Journey goes on.

"I'm a slow walker, but I never walk back."
Abraham Lincoln

It was during one of those Annual Family Health Days at Nakuule Health Centre II that RC Nansana club members realised that there was dire need for Nansana Community to get a wider and improved range of health services.

The number of residents and non-residents that had turned up for free health services was overwhelming and actually continue to be, despite the fact that private health facilities continued to mushroom the municipality. The club leaders at that time led by PAG Were embarked on needs assessment with a purpose of persuading other club members to have this as a club project and as well determine possible development partners.

In 2016, PAG Jotham, the then club president asked me to do an assessment on how much more land we may need in order to realise this project. This very assessment accompanied the club's request

for land from the Buganda Kingdom. With the help of PDG Robert Nsibirwa, about 40 decimals (additional and titled) were granted to RC Nansana. Wow, that was a great milestone.

The rest is now history. With a tripartite partnership, RC Nansana, Buganda Kingdom and Nansana Municipality, backed up by the Nansana Community, the **Ugx. 5-billion, three-storied building project** kicked off in the last quarter of 2022 and we're moving steadily. All foundations, including plinth walls, have been completed, and we are soon casting the oversite concrete slab.

The project is being managed by a very competent contractor and team of professional consultants supervising the works thus expecting the best output.

SEBBI HOSPITAL

Sebbi Hospital Ltd is a private healthcare Centre located in Central Region of Uganda, Nansana Municipality, 5km along Hoima Road, Wakiso District. It commenced operations as a Medical Centre and upgraded to a hospital to serve the increasing population and demand for variety of specialized healthcare services.

Tel: +25620090601 +256782799787
Email: info@sebbihospital.co.ug
clientcare@sebbihospital.co.ug

When completed, the Nansana Rotary Health Centre will have a good number of facilities / services that will include; out-patient department to cater for about 400 patients on daily basis, 7no.-wards (Maternity, Labour, Female General, Male General, Children, Surgical), 2-well-equipped theatres, Pharmacy, Laboratory, X-ray, CT-Scan plus a mortuary and an incinerator.

Provision of such services will raise it's ranking from a Health Centre II to Centre IV (Mini Hospital).As a club, in collaboration with our development partners, we have put in place a couple of avenues through which we're soliciting funding for the project.

They include, but not limited to; Club members' contributions, Voluntary contributions by the public through pledges, fundraising dinners, Annual Walks/ Runs, Corporate partnerships and marketing spaces, Car Wash and Music shows. Further to

this, the club has undertook to provide all the equipment required in this facility through *a Rotary Global Grant estimated at Ugx. 3-billion.*

It's at this very point, that I thank everyone who has contributed to this noble cause. However, the struggle continues. I therefore urge club members, the Rotary fraternity, Central Government, the general public especially the Nansana community to continue embracing and supporting this noble cause such that it's executed and completed within it's *stipulated timeframe of 4-years.*

Realisation of this project will not only help the "Boy child" carry his usual family cross but will also create hope to the world.

Rtn. Fred Mukasa (PHF)
PND – RC Nansana

Existing Health Centre II block

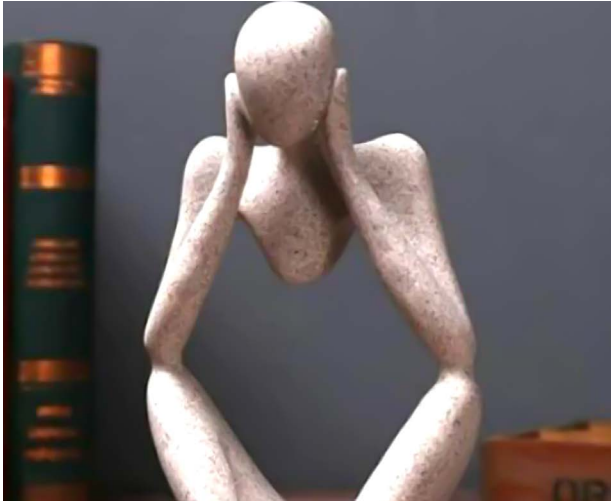

Where we're now

Where we intend to be in 3yrs' time

Never Ever Forget these Lessons of Life

1. Always remember that you can grow without destroying others.*
2. Always remember that your dreams can be fulfilled without sabotaging others.*
3. Always remember that nobody must go down for you to rise.*
4. Always remember that nobody must be shamed or embarrassed for your smile to be sustained.*
5. Always remember that while others are rising, you can also rise.*

6. Always remember that finding satisfaction in the pain of others will never bring you true happiness.*
7. Always remember that what you wish others is a prayer for yourself.*
8. Become the good fire that genuinely lights up others, not one that ruins the joy, goodwill, and expectation of others.*
9. Never take delight in causing pain or sponsoring the tears of another.*
10. Never ever use your position in authority to punish others. You never know tomorrow. Life is uncertain.*

Also, never use the position you occupy today to frustrate others, for you never can tell what the future holds tomorrow.*

11. *Allow the true FEAR OF* *GOD to guide your days,* *STRENGTHEN YOUR* *RELATIONSHIPS and SET* *YOUR COURSE*
12. *NEVER, I REPEAT,* *NEVER LOOK DOWN ON* *ANYBODY EXCEPT YOU ARE* *ADMIRING THEIR* *SHOES*

**This is the path to true* *peace, lasting influence and* *MEANINGFUL LIVING.* *STAY BLESSED „TAKE CARE* *OF THE PEOPLE, YOU MEET* *ON UR WAY UP. THEY MAY* *BE THE SAME PEOPLE YOU MEET* *ON UR WAY DOWN..*

I *WAS JUST THINKING WIDE* *THOUGH*

By AG Alfred Bakyusa

The 6 Canon principle LAWS TO WIN IN LIFE...

Stop telling people your plans
When you over share, you hurt your own progress. Keep things private and win.

Know when to say no

Strong people put their own well being before pleasing others.
Practice saying no more often.

Make a decision, and commit to it
Too many people lack discipline and go back to their toxic patterns. Make a decision to change, and stick to it.

There is power in numbers

Nobody has made it in life all by themselves. You need a team that

uplifts and supports you. Stop being a lone wolf.

5. Starve your distractions, feed your focus

Focus on your goals instead of cheap dopamine. You will achieve anything you ever wanted.

6. Always provide value to others
There is only one secret to success: making other people's lives easier. In business and relationships, providing value will keep you their first priority.

By AG Alfred Bakyusa (PHF)

Outgoing Rotaract President

The Amazing Year that Was!

Amazing year, a year of amazing beginning and somewhat amusing end. The rotary year 2022/2023 started on a high gear; the work plan was saturated with well laid and pending activity schedules. There was anxiety to know what the future holds because club members too promised big. Whether all went as planned is a discussion for another day. Key to note is that the rotaract club of Nansana registered a number of achievements amidst a plethora of challenges.

The club brought home one award for presenting the highest number of participants in D9213, REI 2023, Masaka Edition. During the year, the membership and member participation grew, weekly club meetings/fellowship flourished, the club actively took part in all district activities. We also ensured good working relationship with our mother club, the rotary club of Nansana, other sister clubs and interact clubs as witnessed in joint impactful projects and other bonding activities during the course of the rotary year. The club donated reasonably to the rotary foundation and internally stood with members in both good and bad. This way, we achieved as a team. Most importantly, we managed to successfully implement

three impactful projects in the rotary year 2022/2023; Installation of solar system at Karis Children Home in partnership with the Institute of Electrical and Electronics Engineers (IEEE), Cleaner and safer Nansana, 6 th Edition

in partnership with the rotary club of Nansana, Donation and installation of a water purification system at Uganda Cancer Institute Care Home in partnership with the rotaract club of Masaka, D214. To strengthen the bond and groom our interacts, we jointly implemented two projects with the Interact Club of Makerere Secondary School.

These I believe were the very amazing bits of the amazing year. Many thanks to the membership of the rotaract club of Nansana for being supportive all through, the board of directors for sparing time to deliberate on club issues, our mother club, the rotary club of Nansana, our corporate members, partners and well-wishers for supporting the club all through the rotary year. The amazing year presented a cocktail of growth, learning and frustration in some circumstances but most importantly, I got an opportunity to serve, and I gave what I could and that's all that mattered.

AP Ogang Benard Gerad, Immediate Past President, Rotaract Club of Nansana.

Incoming Rotaract President

A dawn of Hope

There comes a time in life when people feel like everything has come to a standstill; and because of this they have no expectation for any good because of the tribulations they have faced in life. For lack of a better word, this is the feeling of Hopelessness. And most people will say; such is life!

But with Rotary, our hopes are forever renewed by our continued commitment to serve every other year.

For this, I congratulate the able leaders of the Amazing Year RY 2022/23 for the wonderful job executed in improving lives for others. I also thank

them for ushering us into the new Rotary Year themed "Create Hope in the World".

As the new President of the Rotaract Club of Nansana, I see this new Rotary Year as an opportunity to work together to rekindle the embers of hope where they had died.

I look forward to using both my professional and leadership skills to extend a hand of hope to the world, in partnership with Rotary Club of Nansana our Sponsoring Rotary Club, and the rotary family at large.

Last but not least. I would like to wish the whole Rotary Fraternity a wonderful transition into the new Rotary Year that has been dubbed "Our Special time".

Yours in service,

**PE Regina Namugerwa
Rotaract Club of Nansana**

Together As One; A Buddy-Buddy Reflection

Rtn George Kibuuka has been bedridden with prostate cancer for some time and he last set foot in a Rotary meeting in August, 2022.

Currently, he spends most of his time indoors and yesterday, Jackie and I paid him a visit at his home nestled behind The Opportunity Bank, Nansana.

Back in 2019, I was in the same Red Badge class as Jackie, George, Nicolas and Fiona, and together, we have a platonic relationship that goes much beyond what one might expect to find in a regular Rotary Club.

This can be attributable to the enjoyable mentorship sessions we had with PP Henry Duku.

George served in the Uganda Army throughout the 1970s before joining the NRA in the bush. Right from the start, I found him to be a fantastic story teller.

And as a result, I gave him a nickname “Askari ya Amin” because of the action-packed stories he used to share.

These days, however, cancer pains have affected George’s life that was once full of humour. He rarely ever ventures beyond his front garden after 6 o’clock.

During our visit, George spoke volumes about the expensive treatment he is receiving at Mulago as a private patient, and after his narration of how he spends his typical day, we asked him to make an effort to get out of the house on a regular basis, for the sake of his mental wellbeing.

We then went ahead to invite him to come with us to the fellowship. For starters, George

responded with: “nze siva waka, mpozi nga ngenda mu dwaliro.” And after a long pause, he said: “naye kale kanyambale tugende.”

Given the physical state George is in right now, it was indeed heartwarming when he okayed our ask and to see him achieve the ambulation goal set by the medics.

And as we walked towards the main road, he again emphasised: “mazima mbagamba nti; singa temubadde mwe, sandifulumye.”

Bless him.

It was indeed very nice to hear those words.

And the sweetness doesn’t end there. When Fiona learned that George was attending the meeting, she decided to make the trek to the hotel even though she hasn’t attended any Rotary meetings since before Covid. She did all this for George’s sake.

Unfortunately, because he is busy working in Naroibi, our other classmate, Nicolas, was unable to attend the reunion.

The sight of George emerging from the fog and in good spirits when he saw members he has not seen in a long time was satisfying and definitely justified our effort.

Askari ya Amin, I wish you a very quick recovery, muganda wange.

By Rtn. Robert Walakira(PHF).

Rtn. Kibuuka (in red) being welcomed back to the club after a long illness

Book Review: **The Ideal Startup**

Worldwide, the “side hustle” bug has caught on. Uganda has not been left out. Wherever you turn, you are encouraged to have a side hustle and this virus was exacerbated by the COVID pandemic.

It isn't long though before a brave salary earner gives in to the peer pressure and burns their fingers in the quest to become a successful side hustler.

The brave salary earner soon learns that whereas agriculture, for example, is indeed a sector with a lot of potential and low barrier to entry, there is more to it than meets the eye.

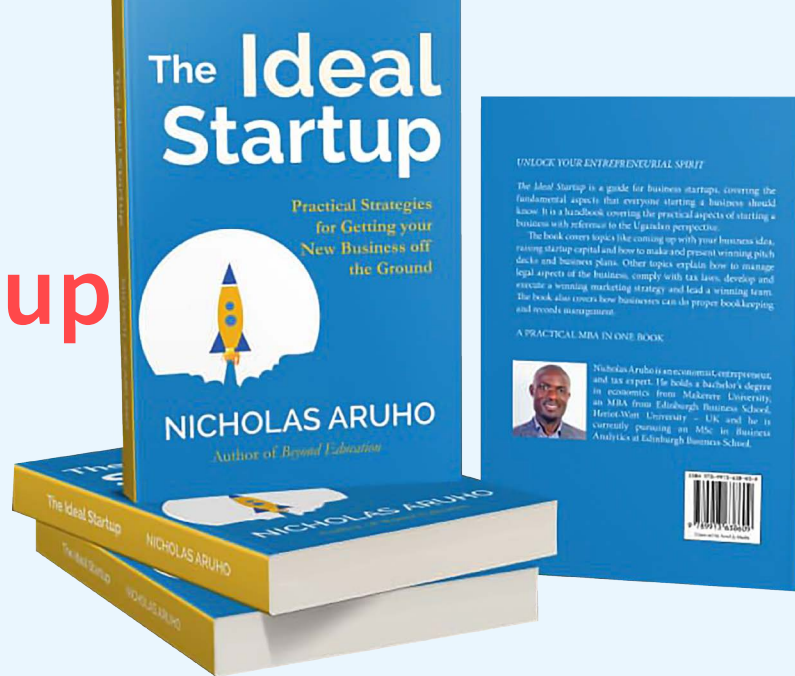

Said salary earner is soon confronted with a myriad of obstacles including the need for physical supervision, blatant theft and deceit, betrayal, book-keeping challenges, capital, debt, quality control, market, to mention but a few.

One of the hindrances cited has been that successful entrepreneurs do not reveal the bumps in their success story, leaving the audience to assume it's all rosy.

In Uganda specifically, apart from chronological biographies by business people and theoretical textbooks used in business school, there doesn't seem to be much literature focused on the intricacies of side hustles and how one can navigate the maze of entrepreneurship. Until now.

Nicholas Aruho, a Customs officer, is an Economist and prolific writer well known for articles and book titles like “The Breakthrough” and “Beyond Education”.

His latest offering “The Ideal Startup: Practical Strategies for Getting your New Business off the Ground” is the side hustler's guide into the hitherto unknown world of business, especially as a side hustle.

The book begins with an overview of entrepreneurship, before the Business Analyst tackles topics like business idea generation, raising startup capital, legal aspects in business, preparation of a pitch deck, marketing strategy, building and leading teams, records and bookkeeping, and tax.

He delivers this information in an easy to read, engaging style, and he is able to compress all these gems into less than 210 pages.

The concepts are illustrated with anecdotes from Uganda personalities like Solomon King (Fundi Bots), Ham Kakembo (Chipper Cash), Aga Sekalala Sr. (Ugachick), Maxima Nsimenta (Livara), Davis Musinguzi among other business leaders and startup founders.

It is a book that one reads and then refers to again and again because it is designed to solve real time challenges. It's no wonder that, barely a month after it was released, people are scrambling to buy the book and share on their social media platforms.

It is available at Aristoc Booklex and other major bookshops. It is also available for delivery through Mahiri Books and Jumia, as well as Nuria stores in Kenya.

WEBSITE: www.psalmsfoodindustries.com

Psalms Food Industries Ltd was founded in 2010. The company is located at Plot 8498, Hoima Road, Wakiso District. We deal in manufacturing of Crisps, Nuts and Extruded snacks under the brand name SUMZ. We have a growing range of products over 20 portfolio which are very visible in supermarkets, and shops.

With a work force of strong men and women, our employees are groomed for career development, through our stimulating, challenging and rewarding work environment which creates opportunities for professional and personal development. We remain committed to team work and partnerships with employee, shareholders, customers and the community.

In all that we do, the quality of our products is keenly monitored right from sourcing of raw materials. Our products are certified by UNBS and Halaal bureau of standards. We equally believe that our pricing is competitive to ensure value for money and this is well aligned with our value proposition "A healthy, good quality and affordable choice."

We take great care to ensure food safety through automation of processes in a clean work environment. We constantly strive to improve upon our products so that total quality is achieved in every sphere of activity.

The company has over the past years engaged in community support initiatives by taking a more proactive role in designing, funding and implementation of strategically selected initiatives (C.R.S) to benefit the community.

We continue to build a strong and powerful brand which has led to recognition and winning of several awards from far and wide
